

## Workshop “Political Participation” |

Monday 2<sup>nd</sup> of Nov, 9:30 a.m. and Tuesday 3<sup>rd</sup> of Nov, 1:30 p.m. – in the Café of KJSW

Dear participants,

In the workshop “Political Participation” your task is to identify needs and formulate them in a letter to politicians or institutions.

You will work in teams of two. Below you find a list with the teams and the politicians / institutions to whom/which the teams has to address.

### Details

#### Politicians

In our brochure there are three Tunisian politicians. Send them the brochure and formulate a need / aim. Try to use the statements in the interviews.

Example: pg. 31 Saida Quinissi says:

“We have to look to Europe ...and study their school systems”

You could write that you found this point very convincing and that you wonder whether there are any parliamentary initiatives regarding this. (or if this can be transferred to other fields like “apprentissage/training”, university system)

#### [www.ijab.de](http://www.ijab.de)

This organization offers regular meetings and workshops for Tunisians. In the end of November they invited members of Tunisian organizations to Germany.

Example:

Find out who's in charge of these meetings / workshops. Write an E-Mail and ask what are the criteria to be invited. Give a short background to yourself / your Ngo. Ask also for a list of Tunisians organizations who were already invited. You have to reason why you want to have this list.

#### Bavarian-Tunisian-Action Plan – in French

Study the plan and identify the points which are useful for you. Formulate a letter to Mme X of Ministère du Développement, de l'Investissement et de la Coopération Internationale Tunisie. The letter will be proofread by the Bavarian Ministry before it goes to Mme X.

Example

There is a cooperation between the University of Sfax and a Bavarian one. Make a research what's written about this cooperation at the website of the Uni of Sfax. Maybe in this case you should write to the university and ask ... or offer ...

But there are also offered placements in the field of tourism. You could write a letter and ask how to apply.

#### Foreign Office

In the frame of the German-Egyptian-Tunisian Transformation Partnership the Foreign office offers programs and support for projects. Check the page (- also in French -)
